

D'lecta™

Milké™
मिल्के

Just Perfect for Tea & Coffee

The Little Wonder!

D'lecta

For the first time in India -

- Aseptic Liquid Dairy Creamer in Single Serve Portion Packs
- Each cup contains 7 or 10 ml. of concentrated milk
- UHT treated and aseptically packed for longer shelf life (180 days)
- High Barrier packaging materials
- No Preservatives
- No need to refrigerate

D'lecta

Easy to use..

Break Tab

Tear

Pour

- Break Tab
- Tear – Automatically a V notch is formed
- Pour – Milk never spills. Pour easily without any mess.

Milk Powder is
a Compromise,
Move up to Milké

D'lecta

- No more undissolved powder residues/lumps in your tea/coffee
- No more burnt powdery beverage taste
- No more hygiene and product safety issues
- No more milk powder flying all over when opening the sachet
- No more embarrassment in serving tea/coffee to guests

No More Compromises!

Easy Steps to a Perfect Beverage Experience

- Place tea bag or instant coffee in the cup
- Pour hot water
- Pour D'lecta Milké
- Add sugar to taste

And a fresh cup of your favorite beverage is ready!

A Truly International Experience..

D'lecta

Milké™
मिल्के
Just Perfect for Tea & Coffee

- Makes the beverage richer, improves mouth feel & taste
- Milké does not drop the temperature of the beverage
- Fresh milk experience with no refrigeration required
- No premix sugar unlike milk powder: Good for diabetics
- Sized to perfection for a cup of beverage
- Unmatched experience your esteemed guests are used to

All this..
At what cost you ask?

D'lecta

- Cost difference of less than Rs. 1 as compared to Milk Powder
- No need for a pantry, all you need now is an electric kettle
- Does away with need for a butler to make tea/coffee
- No need for expensive premixes, just your favorite tea/coffee
- No wastage because of milk left behind in the milk pot
